

## The VS 32-L series

The VS 32-L Automatic Strapping Head is the ideal head for applications requiring extremely high strap tension and joint efficiencies. In addition, the compact base plate permits the strapping of small packages.

Special applications for the VS 32-L are encircling strapping of coils, coil strapping through the eye, slit coils, wire and wire bundles.

<b>Drive Mode</b>	<b>Electro-Pneumatic –3 motors – 2 cylinders</b>
<b>Strap feed speed</b>	<b>5.6 ft. / sec</b>
<b>Tensioning capacities</b>	<b>900 – 4500 pounds force adjustable</b>
<b>Air pressure</b>	<b>90 Psi max</b>
<b>Steel strapping - Widths/Thicknesses</b>	<b>3/4 inch , 1 inch and 1 1/4 inch, .031 inches to .040 inches – high tensile strapping up to .031 inches</b>
<b>Seal Type</b>	<b>Spot weld joint, 2 weld points, joint efficiency up to 90% of strap breaking load</b>
<b>Min. Surface Required</b>	<b>Expanding Packs 7.0 inch Slit coils 7.0 inch Round Packs Ø 31.5 inch</b>
