- **Effortless Sealing action**

## Titan PKD Heavy Duty Pneumatic Seal-less Combination Tool

**Automatic tool for easy and efficient strapping.**

Use the Titan PKD pneumatic Seal-less Combination tool to apply steel strapping for heavy industrial applications. The functions of tensioning, sealing and cutting of strap are accomplished with one, easy to use tool, resulting in a seal joint that is stronger than joints made with standard metal seals. The modular tool design simplifies wear parts replacement

The genuine Titan “No-Seal-Joint”

Prevents injuries: The uniquely shaped strap end leaves no sharp

Technical Data	Model Titan PKD
Seal Type	Seal-less
Strap Qualities	Regular Duty and High Tensile Strap
Strap Width	1¼ inch
Strap Thickness	.031 to .035 inch
Applied Tension	Adjustable to 3150 pounds force
Air Supply	80 to 95 psi
