

DuBose Strapping Titan SPZ and DPZ

Pneumatic Single and Double Notch Sealers for Steel Strapping

Titan SPZ

This piston grip sealer will seal joints either parallel or perpendicular to the operator. The SPZ forms a single up notch crimp on steel strapping up to .040 inch thick, and strap widths $\frac{3}{4}$ and $1 \frac{1}{4}$ inches.

- Adjustable direction for sealing
- Easy one button operation
- Light weight, only 8 lbs
- Easy to change to wear parts

Titan DPZ

This piston grip sealer will seal joints either parallel or perpendicular to the operator. The DPZ forms a Double up notch crimp on steel strapping up to .040 inch thick, and strap widths $\frac{3}{4}$ and $1 \frac{1}{4}$ inches.

- Adjustable direction for sealing
- Easy one button operation
- Light weight, only 10 lbs
- Easy to change to wear parts
